

James S. Snyder
Anne and Jerome Fisher Director

02 December 2010

To: Baran
Nihul Proyectim Ba'am

From: Mr. James Snyder
Director
The Israel Museum, Jerusalem

To Whom It May Concern:

I am writing to recommend Mr. Dudi Kedar and his company, LevDA, who recently provided general contracting services for the renewal of the Israel Museum's Samuel and Saidye Bronfman Archeology Wing.

This project involved 45,000 sq. ft. of reconstruction and installation of nearly 1,000 custom-designed cases housing 6,000 objects of archeological significance. The sophistication of the design and the quality of the execution of the work are an objective testimony to the capability of Mr. Kedar and his firm, whose work was accomplished on time and close to budget with respect to our overall \$17.5 million project scope.

We would welcome a site visit in order to demonstrate the quality of performance that was achieved by LevDA's team, and we recommend Mr. Kedar and LevDA without reservation of any kind.

Please let me know if I can assist you in your consideration in any further way.

Sincerely,

James S. Snyder
Director
